

Bericht Furnaces North America 2014

www.themonty.com

Furnaces North America. For your viewing pleasure we have a few more photos from the FNA show in Nashville, TN which wrapped up Wednesday of this week. The first photo was taken at the Rohde booth (a German furnace manufacturer) and shows amongst others the youngest heat treater we know. **Vincent Rohde** (the real short guy in the middle) is now 16 months old and is attending his second heat treat show. His third is coming up in Germany in a week and a half. **October 10/2014**
