Rohde GmbH/ Haertereit Tandler. We are going to Germany for this news item about how furnace builder **Rohde** recently installed a new nitriding furnace at commercial heat treater **Tandler** in Bremen, Germany. Rohde recently delivered a pit furnace of 1,1 m diameter and 3,3 m height for nitriding to **Haertereit Tandler** in Bremen. This heat treat shop is located in the North of Germany in Bremen and offers the whole range of heat treatment. Besides processes such as nitriding, carburizing, annealing and vacuum hardening, **Tandler** also offer their own processes such as the Tan-Ox process. Installations at the heat treat shop in Bremen include gas nitriding- and gas carburizing furnaces, salt baths for quenching salts and salt recovery units from Rohde GmbH. From left to right: Joern and Vincent Rohde, Carsten Erasmi (CEO Tandler), Lothar Krelle (CEO Haertereit Tandler) and Natasha Rohde.
